## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-12 and 14-36 allowed.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The present invention is directed to a polymer (A) having repeating groups of formula (I) and (II) in combination with an unctuous agent. The closest prior art is Bowers et al. (US 5,648,442), where the polymer (A) having repeating groups of formulas (I) and (II) is combined with a hydrophobic surface in the formation of medical devices. The novelty of the invention lies in the polymer (A) being combined with an unctuous agent to for a cosmetic composition. The use of this polymer in a cosmetic composition is neither anticipated nor rendered obvious by Bowers et al. because the polymer is not known to be combined with any unctuous compound for the formulation of a cosmetic.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
